Sub-Committee discussed the ongoing challenge of the Arlington Home Rehabilitation Program to find interested and eligible applicants. Funding recommendation for FY19 reflects this challenge and is significantly less than in prior years. The subcommittee will continue to monitor progress of this program.

Based on Grant Evaluation Criteria scores, final funding recommendations were made for all funding categories: Housing/Rehabilitation, Public Services, Public Facilities and Improvements, Planning, and Administration. A report will be prepared for Town Meeting for final approval of these funding recommendations.
